Structured Wiring Solutions

Voice, Data, Video, Audio and Networking Products for Residential Applications
From the most basic package to the most advanced, Structured Wiring Solutions by Eaton Corporation are completely customizable. Create a system with all the features and benefits from the very beginning, or start with the basic package and add on as your customer’s needs change. Components are built to the highest quality standards with heavier gauge metals and because it’s a built-in feature, Structured Wiring is visually unobtrusive.

Eaton also offers all the support documentation necessary to make installation quick and easy. All the information you would need is available 24 hours a day at EatonElectrical.com

Mix and match modules to create a solution that is just right for your customer.
